# PRODUCT GUIDE

## Abolish® PRO Cockroach Gel

**Active:** 8 g/kg Indoxacarb (75:25) (equivalent to 6 g/kg active S-isomer)

**Formulation Type:** Cockroach Gel Bait

**Pack Sizes Available:** 1 x 50 g (Order Code: SUN729)

**Market Segments:** For the control of all life stages of cockroaches in domestic, commercial and public service buildings including factories, farm buildings, food processing establishments, homes, hospitals, kitchens, offices, store rooms, restaurants, retail outlets, vehicles and other situations where cockroaches occur.

- Unique bait matrix with:
  - 2 x carbohydrate attractants (neither of which is sugar)
  - 2 x protein attractants (1 x plant, 1 x animal)
- 50 gram tube – the largest tube in Australia!
  - Controls all prevailing cockroach species including bait-averse cockroaches
  - Ready to use, no gun needed
  - Recommended for use with EnsnarePRO® 50SC non-repellent residual insecticide
  - Australia's most convenient roach bait gel

## BattleaxePRO® Roach Bait Gel

**Lasts up to 10 x longer than any gel on the Australian market guaranteed!**

**Active:** 0.5 g/kg Fipronil

**Formulation Type:** Cockroach Gel Bait

**Pack Sizes Available:** 1 x 20 g (Order Code: SUN446)

4 x 20 g (Order Code: SUN361)

**Market Segments:** A crevice, crack or spot treatment for the control of cockroaches by professional pest control operators.

- Attractive to all life cycle stages including nymphs and adults
- Neutral colour
- Every tube of gel comes with a plunger
- Remains highly palatable up to 10X longer than any other roach bait gel
- HACCP International Certified

## ANTagonist® PRO 80 SC

POWERED BY:  
**POLYMER  
ENHANCED  
BIFENTHRIN**

Approved for  
Red Imported  
Fire & Yellow  
Crazy Ants

**Active:** Polymer Enhanced 80 g/kg Bifenthrin

**Formulation Type:** Suspension Concentrate

**Pack Sizes Available:** 1 L (Order Code: SUN095), 5 L (Order Code: SUN569)

**Market Segments:** For the control of ants and a broad range of other urban pests, and for the control of pests in ornamental plants and turf as specified in the directions for use.

- Australia's only Polymer Enhanced Bifenthrin
- ANTagonistPRO now boasts over 25 new insect claims
- HACCP International Certified

**NEW Label Claims for a broad range of general insect, termite, turf & ornamental pests**

## ANTstripz®

**Professional Platform for Ant Gel Baiting**

**Pack Sizes Available:** 120 ANTstripz per pack (Order Code: SUN583)

**Market Segments:** For use with ant bait gels.

- ANTstripz are a convenient tool to monitor, measure and maintain a professional placement of ant gels
- Each Stripz has a 5 cm and 7.5 cm guide for accurate measurement of gel application
- A raised 'well' on each Stripz helps retain liquids from gel baits with high moisture content when used on horizontal surfaces
- ANTstripz utilise non-glue technology to adhere to smooth flat surfaces e.g. laminate, tiles, stainless steel, etc
- HACCP International Certified

### AttractANT PRO® Ant Bait Gel

**Active:** 0.5 g/kg Indoxacarb

**Formulation Type:** Ant Gel Bait

**Pack Sizes Available:** 1 x 50 g Tube (Order Code: SUN576)

**Market Segments:** For the control of major ant species including Argentine ant, black house ant, coastal brown ant, ghost ant, hair ant/crazy ant, pedicel ant, pennant ant, Pharaoh's ant, red imported fire ant, and sugar ant.

- Unique polymer technology
- Unique carbohydrate attractant
- BIG 50 g tube gives you 66% more product for FREE
- Ready to use, no gun needed
- Fits in your pocket
- Australia's most convenient ant bait gel
- HACCP International Certified

### Quench® PRO Ant Bait Liquid

**Active:** 0.05 g/L Imidacloprid

**Formulation Type:** Liquid Ant Bait

**Pack Sizes Available:** 250 mL (Order Code: SUN163)

**Market Segments:** QuenchPRO is a highly effective bait for the control of pest ants that infest indoors and outdoor situations.

- Classified as 'non-scheduled' poison
- Perfect for use indoors and out
- Kills the queen and destroys the nest
- Fast acting formulation
- Odourless
- Secure, no-leak, twist lid applicator tip
- Easy to use

### BattleaxePRO® Professional Crack & Crevice Aerosol

**Active:** 20 g/kg Propoxur, 2 g/kg Tetramethrin, 10 g/kg Piperonyl Butoxide

**Formulation Type:** Aerosol

**Pack Sizes Available:** 420 g (Order Code: SUN002)

**Market Segments:** For the control of bed bugs, cockroaches, ants, spiders, flies and other insect pests as specified in the directions for use.

- Massive professional 420 g pack
- Special 360 degree valve allows spray at any angle, even upside down
- Powerful 3 way mix of propoxur, tetramethrin and PBO
- Kills anything with 6 or more legs
- Approved for direct treatment of mattresses for bed bugs
- HACCP International Certified

### DeltaPRO® 25 SC Residual Insecticide

**Active:** 25 g/L Deltamethrin

**Formulation Type:** Suspension Concentrate

**Pack Sizes Available:** 200 mL\* (Order Code: SUN552), 1 L (Order Code: SUN019) & 5 L (Order Code: SUN026)

**Market Segments:** For the control of a broad range of insect pests in various situations as specified in the directions for use.

\* 200 mL comes in display box with measure beaker included

\*\* 10 L made to order.

**POWERED BY:**

- Unique Controlled Particle Technology (CPT)
- Unique Transigel Rheology System (TRS)
- Australia's BEST formulated deltamethrin
- Robust, great all-rounder pest treatment
- HACCP International Certified

**EnsnaREPRO® 50 SC**  
Non Repellent Residual Insecticide

Up to six months  
residual control

**POWERED BY:**

- Active:** 50 g/L Indoxacarb  
**Formulation Type:** Suspension Concentrate  
**Pack Sizes Available:** 1 L (Order Code: SUN514)  
**Market Segments:** For the control of ants, cockroaches, fleas, millipedes, slaters, crickets, house flies and baiting of European wasps.
- Unique Controlled Particle Technology (CPT)
  - Unique Transigel Rheology System (TRS)
  - Boasts Smart Kill Technology
  - Non-repellent residual spray
  - Nonstaining
  - Residual spray provides up to 6 months control
  - With the addition of sugar to the tank, the mix can be used as a sprayable fly bait
  - Mix with Sundew VESPEX European Wasp Lure to create a toxicant bait for European wasp nest elimination
  - HACCP International Certified

**MaxumPRO® 125 SC**  
Super Concentrated Formulation  
Professional Residual Insecticide

**POWERED BY:**

- Active:** 125 g/L Beta Cyfluthrin  
**Formulation Type:** Suspension Concentrate  
**Pack Sizes Available:** 500 mL (Order Code: SUN033)  
**Market Segments:** For the control of cockroaches, spiders, ants, fleas, flies, silverfish, bed bugs, mosquitoes, clothes moths, carpet beetles, stored product pests in situations specified in the directions for use.

- Unique Controlled Particle Technology (CPT)

- Robust, great all-rounder pest treatment

**NEW Label Claims for turf & ornamental pests**

**Baysol® Snail and Slug Bait**

- Active:** 20 g/kg Methiocarb  
**Formulation Type:** Ready to use pellet bait  
**Pack Sizes:** 600 g (Order Code: SUN903)  
**Market Segments:** For the control of snails, slugs, millipedes and slaters in home gardens and other various situations as specified on the label.
- Handy weatherproof plastic pail with carry handle
  - Applicator scoop inside pack
  - One pellet can eliminate up to 30 snails
  - Mould resistant
  - Faster kill – fewer recoveries
  - Contains a bittering agent (Bitrex)
  - Made in Australia

**Mesurol™**  
Snail & Slug Bait

- Active:** 20 g/kg Methiocarb  
**Formulation Type:** Ready to use pellet bait  
**Pack Sizes Available:** 10 kg (Order Code: SUN910), 150 kg (Order Code: SUN927)  
**Market Segments:** For the control of snails and slugs in gardens, pastures, orchards, vegetables, cereals, citrus, grapes and other various situations as specified on the label.

- Long lasting – remains effective even under adverse weather conditions
- Highly effective – up to 30 snails can be killed with a single pellet
- Provides rapid elimination with fast-acting effects
- Positive kill – snails do not recover from a dose
- Mould resistant
- Contains bittering agent
- MADE IN AUSTRALIA

## PestieDOTZ®

### Professional Polymer Platform for Gel Baiting

**Pack Sizes Available:** 280 Dotz per pack (Order Code: SUN187)

**Market Segments:** For use with cockroach bait gels.

- Tough polymer construction - won't tear or leave visible residues when removed
- Quick identification of where bait placements have been made
- Signals to customers that a treatment is in progress
- Aids in monitoring bait consumption
- Each Pestie Dotz has a 5mm ready reckoner to aid in correct dose application saving you money
- Pestie Dotz are the professional way to apply cockroach gel baits
- Unique 'no-glue' technology allows application to smooth flat surfaces e.g. laminates, tiles, glass, etc
- HACCP International Certified

## SAS PRO®

### Professional Fipronil Granular Ant Killer

Approved for  
Red Imported  
Fire & Yellow  
Crazy Ants

SmartKill  
TECHNOLOGY™

**Active:** 0.25 g/kg Fipronil

**Formulation Type:** Granular Ant Killer

**Pack Sizes Available:** 1 kg (Order Code: SUN477), 10 kg (Order Code: SUN101)

**Market Segments:** Non-repellent control of ants in turf, external surrounds of buildings and structures as specified in the directions for use.

- High quality, graded for superior consistency silica carrier
- Non-scheduled rating - safe for use in sensitive areas
- Ideal for lawns, garden beds, between pavers, etc
- Non-repellent treatment
- Transferred back to nest for colony elimination
- FREE shaker pack dispenser in every 10 kg pail
- Australia's leading granular ant treatment
- It doesn't matter whether they're sugar, protein, or carbohydrate feeding ants - SAS PRO controls the lot!

**FREE shaker pack inside every 10 kg bucket**

## Starrdust®PRO

### The Only DUAL Active Industrial Strength Dusting Powder with Insect Growth Regulator

**FREE Scunnel  
in every bucket**

**Active:** 20 g/kg Permethrin 40:60, 5 g/kg Triflumuron

**Formulation Type:** Insecticidal Dusting Powder

**Pack Sizes Available:** 10 kg (Order Code: SUN309)

**Market Segments:** For the control of various insect pests in domestic and industrial situations as specified in the directions for use.

- Australia's first Dual Active, Dual Action industrial strength dusting powder
- 4 extra pests on label not found on any other dusting powder in Australia: millipedes, slaters, clothes moths and litter beetle

- Every 150 g and 2 kg bucket comes with FREE measuring scoop

**Better Performance.**

**Better Value.**

# VESPEX®

## Sundew VESPEX® European Wasp Range

Sundew Solutions is the first in Australia to deliver a complete range of trapping and baiting tools designed specifically for European wasp control. Through our VESPEX® Accredited Specialist program – another industry first – Sundew ensures professional stewardship and responsible use when baiting these aggressive invasive pests.

*"We're not just making products; we're opening up new market opportunities for pest managers."*

- David Priddy, CEO of Sundew Solutions.

With VESPEX®, pest professionals now have innovative, targeted solutions to expand their services and tackle one of Australia's toughest invasive pests.

### VESPEX® Baiting Tunnel Bulk Pack

#### Kit Contains:

- 50 x Bait Tunnels & 50 x Feeder Trays (Order Code: SUN750)

The VESPEX Baiting Tunnel Bulk Pack is an economic bulk pack of baiting stations for users already set up with the tools to do larger area baiting programs.

VESPEX Baiting Tunnels are made from 100% Recycled Materials, are 100% Recyclable, Made In Australia, and are a Certified Carbon Neutral Product.

Visit [www.sundewsolutions.com.au](http://www.sundewsolutions.com.au) to find out how to become a VESPEX Accredited Specialist today.

- HACCP International Certified

### VESPEX® Dominator® Bottle Trap

VESPEX® Dominator® Bottle Trap (Order Code: SUN651)

**Market Segments:** Insect traps are used to monitor or directly reduce populations of insects or other arthropods by trapping individuals and killing them.

The Sundew VESPEX Dominator Trap can also be utilised as a bulk European wasp bait deployment station - simply remove the yellow cones to allow access to foraging wasps. This may be handy when there are large populations of wasps or you are unable to frequent the site for inspection.

The Sundew VESPEX Dominator Bottle Trap is recommended for use with VESPEX European Wasp Lure when targeting European wasp (*Vespula germanica*). For European wasps foraging for protein the use of raw fish, chicken or other suitable meat products can be substituted in place of liquid lures to attract and capture wasps.

- HACCP International Certified

### VESPEX® European Wasp Baiting Accessory Kit

VESPEX® European Wasp Baiting Accessory Kit (Order Code: SUN705)

#### Kit Contains:

- 10 x Bait Tunnels
- 10 x Feeder Trays
- 10 x 360 mm Cable Ties
- 1 x Permanent Marker
- 1 x 500 mL Mixing Bottle
- 4 x Map Planner Pages
- 1 x 5 mL Disposable Measuring Syringe
- HACCP International Certified

The VESPEX European Wasp Baiting Accessory Kit is intended for use by VESPEX Accredited Specialists for remote baiting of European Wasps when nests are unable to be located and treated directly.

Visit [www.sundewsolutions.com.au](http://www.sundewsolutions.com.au) to find out how to become a VESPEX Accredited Specialist today.

## VESPEX® European Wasp Lure

**Active:** N/A

**Formulation Type:** Liquid Lure for European Wasp

**Pack Sizes Available:** 250 mL Foil Pouch (Order Code: SUN644), 5 L (Order Code: SUN637)

**Market Segments:** For use in bottle, bag or suitable traps to lure wasps into the station where they are unable to escape and drown in the liquid lure.

- Eco friendly
- Non-toxic pesticide free
- Scientifically formulated attractant irresistible to european wasps
- Use in early Spring to catch emerging queens
- Use in Summer months of high activity to trap active wasp populations
- Convenient and easy to use
- Pet and people safe
- Mix with Sundew EnsnarePRO® (Indoxacarb) to create a toxicant bait for European wasp nest elimination
- HACCP International Certified

## VESPEX® Feeder Trays Bulk 50 Pack

**Pack Contains:**

50 x VESPEX Feeder Trays only  
(Order Code: SUN835)

**Market Segments:**

Replacement Feeder Trays for VESPEX European Wasp Baiting Tunnels

- Recommended that Feeder Trays replaced regularly
- Replacement for contaminated, damaged or lost Feeder Trays
- HACCP International Certified

## VESPEX® Replacement Yellow Cones 36 Pack

**Pack Contains:**

36 x Yellow Cones only  
(Order Code: SUN811)

**Market Segments:**

Replacement Yellow Cones for VESPEX Dominator Bottle Traps

- Replacement Yellow Cones for cones lost or damaged
- Recommended that contaminated Yellow Cones replaced annually
- HACCP International Certified

## VESPEX® Dominator® ID Labels

### VESPEX Dominator Identification Labels

**Pack Size:** Pack 48 Labels plus Permanent Marker Pen (Order Code: SUN047)

**Market Segment:** For use on VESPEX Dominator Bottle Traps

The **VESPEX Dominator ID Labels** provide a practical and professional solution for labelling **VESPEX Dominator Bottle Traps** in the field. These durable, weatherproof labels are made from a UV-stable, waterproof material designed to withstand harsh Australian outdoor conditions. Each label features a writable surface compatible with felt tip permanent marker pens, allowing users to clearly mark essential trap information such as installation date, location, and monitoring details. These labels enhance reporting accuracy and assist with public awareness and compliance in wasp surveillance and control programs.

- Made in Australia
- Permanent Marker included in each pack

## Introducing Sundew **ecowise**™

"Sundew **ecowise**™ is our new range of environmentally mindful products developed for professional pest managers. Each solution in the **ecowise**™ line-up is formulated with a focus on performance, sustainability, and reduced environmental impact – delivering the control you need with the responsibility your clients expect.

Sundew **ecowise**™ is the first range of its type in Australia, addressing the demand from eco-conscious consumers while creating fresh market opportunities for pest managers."

- David Priddy, CEO, Sundew Solutions Pty Ltd.

**Spinogel® Roach**  
with Natural Spinosad

**Registration Status:** APVMA Approved  
**Stock Availability:** Stock available 8th September 2025  
**Active:** 10 g/kg Spinosad  
**Formulation Type:** Ready to use cockroach gel bait  
**Pack Size Available:** 1 x 50 g Tube (Order code: SUN061)  
**Market Segment:** Spinogel harnesses the power of nature to control cockroaches with a highly attractive, ready-to-use gel bait. Made from a 100% natural and organic blend, it's ideal for use in sensitive environments such as homes, food handling areas, schools, and healthcare facilities. Safe, effective, and environmentally conscious – that's the Sundew Spinogel® difference.

- First 100% natural and organic cockroach gel bait in Australia (and worldwide)
- Powered by Spinosad, a naturally derived active ingredient
- Highly palatable bait matrix for rapid uptake and control
- Extra large 50 g tube for extra value
- Australia's most convenient roach bait gel
- Ready to use, no gun needed
- Flexible application – ideal for sensitive environments (homes, commercial, food-handling areas)
- Provides pest managers with Australia's (the world's) first eco-friendly alternative to synthetic gels

**Spinout® Insecticide**  
with Natural Spinosad

**Registration Status:** Approval Due 1st October 2025  
**Stock Availability:** Stock available 2nd October 2025  
**Active:** 133 g/L Spinosad  
**Formulation Type:** Suspension Concentrate  
**Pack Size Available:** 500 mL easy measure chamber pack (Order code: SUN078)  
**Market Segments:** Spinout Insecticide is a surface treatment powered by Spinosad, targeting cockroaches, ants and flies. For flies, Spinout can be applied as a residual spray or mixed with sugar to create an effective bait. An ideal partner to Spinogel Roach, Spinout is the smart choice for sensitive or eco-conscious sites.

- Controls cockroaches, ants and flies
- Residual surface spray or sugar-bait option for flies
- Powered by Spinosad – naturally derived active
- Low odour, easy-to-use formulation
- Excellent partner with Spinogel Roach in sensitive environments
- Eco-friendly alternative to traditional insecticides
- New pest claims being added in 2026

**McFly® BaitSpray**  
with Natural Spinosad

**Registration Status:** Approval Due 19th August 2025 - Approval Imminent  
**Stock Availability:** Stock available November 2025  
**Active:** 30 g/L Spinosad  
**Formulation Type:** BaitSpray Concentrate  
**Pack Sizes:** 1 L (Order code: SUN085) and 5 L (Order code: SUN092)  
**Market Segments:** McFly BaitSpray is an eco-friendly, naturally derived fly bait concentrate designed for powerful control across commercial, residential, and agricultural sites. Its unique mouldsuppressing formulation ensures treated surfaces stay fresher and more attractive to flies for longer, delivering fast knockdown and lasting results. McFly provides a safer, sustainable alternative to traditional fly treatments.

- Naturally derived, eco-conscious formulation
- Unique mould-suppressing formulation technology for longer-lasting attractiveness
- Powerful fly control for commercial, residential & agricultural use
- Creates highly attractive feeding surfaces
- Fast knockdown with extended results
- Easy mix-and-spray application
- Low odour, user-friendly solution

Backed by science and inspired by nature,  
 Sundew ecowise™ is helping shape a smarter, greener future  
 for pest management in Australia.

## THE SUNDEW PROMISE

The Sundew Company exists to provide the best-in-market quality professional solutions. The basic proposition of our business is simple: To do the best possible service for your clients, you have to have the best possible solutions.

Our solutions provide confidence, credibility, and leading-edge-science that users can stake their reputations on and feel that they are doing a 'good job' each and every time they use the Sundew Brand.

This is the key to fulfilling our ultimate obligation to providing professional solutions.

A family owned 100% Australian business
